AT gun emplacements were seen in the woods west of the highway south of the Leuenberg meadows, about 200 meters from the edge of the woods, while 132-mm rocket launchers were observed in the area of the camp. Heavy mortars, guns, presumably AT and AA guns, and armored personnel carriers were seen east of the highway south of the firing range. Woodcutters from Trarpe stated that, during the night on 3 February and prior to 8 a.m. on 4 February, columns kept passing through Trarpe, coming from the direction of Eberswalde and proceeding toward Tiefensee. The columns allegedly included about 50 tanks, 30 about 120-mm mortars, 20 AT guns, 30 x 132-mm rocket launchers and about 100 trucks, including some occupied by troops.

Comment. Beginning on 1 February, units of the 6th Gds Pecz Div probably conducted exercises in the area south of Eberswalde, with troops bivouacking on either side of Trarper Chaussee between 1 and 4 February. The exercises presumably involved the bulk of the units of the 6th Gds Pecz Div quartered in the Artillerie Kaserne and elements of headquarters units of the Fourth Gds Pecz Army from the Schuetzen Kaserne, probably the 63d AAA Div (US) and the 312th Gds MI Bgt. [redacted] belong to the Hq Third Gds Pecz Army, are believed to have been confused. The information does not indicate any change in the occupation of the other installations mentioned.
